

## Python Project Report:

### Data Collected:

- <https://www.swiggy.com/city/bangalore>
- <https://www.zomato.com/>

### Web Scraping Tool:Browse AI Software

### Code Execute :Jupyter Notebook

Based on the comprehensive analysis of various factors including delivery time, customer ratings, and cost across different popular dishes like dosa, paneer biryani, and pav bhaji, I draw several conclusions:

- **Delivery Time Efficiency:** **Swiggy** consistently demonstrates **faster delivery times** across different food items compared to **Zomato**.
- **Customer Satisfaction:** **Swiggy** tends to receive **slightly higher ratings** from customers, indicating potentially better overall satisfaction with its services.
- **Pricing:** While **Swiggy** may offer **quicker delivery** and **better customer satisfaction**, it tends to have **higher pricing** for certain dishes like dosa and paneer biryani compared to **Zomato**.
- **Overall Value:** Considering the balance between delivery time, customer satisfaction, and pricing, both platforms have their strengths and weaknesses. **Swiggy might be preferable for those prioritizing quick delivery and service quality**, while Zomato may appeal more to budget-conscious customers.

Top restaurants that have both good ratings and faster delivery for **pav bhaji** orders. Based on your provided list, here are the top restaurants meeting these criteria:

- By Food Carnival
- By Meezzaah (Me and Mera Pizza)
- Bombay Pav Bhaji And Tawa Pulao
